Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**07/14/21 - 07/20/21**

## **Wednesday-Tuesday**

- Temperatures the next several days will be near or slightly above normal, but temperatures will begin to increase again across interior California this weekend into early next week.
  - No extreme temperatures or heat waves are expected over the next week across California.
- Breezy conditions each afternoon will persist in the foothills and mountains, bringing periods of elevated fire weather conditions
  - Critical fire weather conditions are expected Wednesday afternoon and evening in portions of Modoc County
- Isolated thunderstorms are possible across southern California mountains and across the Sierra Wednesday.
  - Precipitation amounts are not expected to be significant, with lightning and erratic gusty winds the main threat.
  - Northern, coastal and most southern California locations will remain dry throughout the week
  - Drier conditions are expected late week into the weekend, with a return to more active thunderstorms and a monsoonal pattern next week.
